Hiring Manager
Norstella

Dear Hiring Manager,

I am excited to apply for the Software Engineering Intern position at Norstella. As a computer science student with a strong passion for software development and problem-solving, I am eager to contribute my technical skills to an organization dedicated to advancing healthcare solutions through technology.

Through my academic coursework and hands-on projects, I have gained experience in Python, JavaScript, and C++, along with version control systems like Git. I enjoy collaborating with teams, writing clean and maintainable code, and learning new technologies to build scalable and efficient applications. The opportunity to work on real-world software development projects at Norstella aligns perfectly with my interest in applying technology to solve meaningful problems in the healthcare industry.

I would welcome the opportunity to further discuss how my skills and enthusiasm align with this role. Thank you for your time and consideration.

Best regards,
Daniel Mora
